

## **COLE BROS. CIRCUS OF THE STARS: XTREMELY ENTERTAINING**

The 2007 edition of Cole Bros. Circus of the Stars shines the spotlight on thrills in 100 minutes of high action presented by daredevil performers from around the world. Revving immediately into high gear, The World's Largest Circus under the Big Top opens with ThunderDrome, where extreme riders from Latin America defy gravity in an act that doubles the danger when the Moto-Globe of Death splits in two. Beijing's Bungee Divers display pluck and impeccable timing, plummeting from a lofty roost in a human cascade. From Guatemala, the Ponce Family Flyers fearlessly soar across the tent, triple-somersaulting from the trapeze. Taking juggling to new heights, the Kim Brothers vault onto horseback to manipulate spinning objects while balanced atop their rapidly moving mounts. Ukraine's Zarina, the bravest woman on the planet, blasts off from the Cannon in a trajectory that traverses a maze of rigging and spans the length of the Big Top.

On hand to provide comic relief are The Bermudez Clowns, along with Brazil's amazing Andrey, the world's wackiest acrobat. Bulgarian gymnasts, Petya and Viky, center an array of artists on twin chiffons, slender swings and twirling ladders in a stunning aerial display. And Abuhadba's poodles compete with the Cole Bros. Circus elephants, Tina and Jewel to steal the show!

Under the direction of Ringmaster Chris Connors and singing co-host, Alissandra, Cole Bros. Circus of the Stars is pure circus—exciting, surprising and a real treat for kids of all ages.
